VOLUNTARY WATER CONSERVATION PROGRAM

The Centerville-Osterville-Marstons Mills Water Department has implemented a voluntary water conservation program. Implementing these important conservation measures could help to avoid a mandatory water ban.

- Please avoid all outside lawn watering (including automatic irrigation systems) use between the hours of 5:00 AM and 8:00 PM.
- Residents living in homes on the odd numbered sides of streets are asked to water lawns and gardens on odd numbered days only. Residents residing on even numbered sides of streets are requested to water lawns and gardens on even numbered days.
- Water only when necessary. Please be aware of the advance weather forecast. If wind and rain is forecast make adjustments to your watering schedule to minimize water consumption.
- Maintain your lawn at a height of at least two (2) inches. This practice will protect roots and retain soil moisture.
- Install rain shutoff devices on automatic irrigation systems.
- Automatic irrigation system owners are asked to check moisture sensor controls for proper operation.
- Water Conservation kits available at no charge upon request. Use water wisely!

Thank you,

Craig A. Crocker
